DETAILED ACTION

This action is responsive to the terminal disclaimer filed 04-15-2004, which has been entered. Claims 1-2 are currently pending.

Drawings

1. The drawings were received on 04-15-2004. These drawings are approved as formal drawing.

Allowable Subject Matter

2. The following is an examiner's statement of reasons for allowance: the terminal disclosure filed 04-14-2004 has overcome the double patenting rejection. In addition, the prior art fails to anticipate or render obvious the combination of a silent chain power transmission apparatus, and in particular, include the inside and outside tooth faces being positioned to satisfy the expression $H_i = H_o + H_s$, H_i is the distance from a pin centerline, passing through the centers of a pair the connecting pins, to a pitch line of the inside tooth faces of a link plate in which the pair of connecting pins, is fitted, H_o is a distance from the pin centerline to a pitch line of the outside faces of a link plate in which the pair of connecting pins is fitted and H_s is the amplitude of the polygonal motion of the chain. In addition, the concave bottom surface of each of the link plates is an arc-shaped surface scooped out more deeply than an arc tangent to the opposed inside tooth faces.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

3. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Marcus Charles whose telephone number is (703) 305-6877. The examiner can normally be reached on Monday -Thursday 7:30 am-600 pm.
